Searching Federal Courts:

District Courts index by defendant, plaintiff, and by case number. Bankruptcy Courts usually index by debtor and case number. Most case files created prior to 1999 were maintained in paper format only. Since 2006, all cases are filed electronically. Paper case files may be stored at the courthouse or forwarded to a designated Federal Records Center (see <http://archives.gov/frc>), the timeframe determined by the Court. These case files may be obtained via the Court or directly from the FRC.

Case data may be viewed PACER, the online public access program. An account is required, the fee is \$.10 per page; there is no fee if a usage does not exceed \$15.00 in a quarter. For details about PACER see the Appendix or go to <https://www.pacer.gov> or call 800-676-6856.

The copy fee is \$.50; \$.10 if electronic document is printed from terminal. Certification fee is \$11.00 per document and \$21.00 for exemplification, if available. If a case is still available from the individual federal court, the search fee is \$30.00. If the case is at the Archives, the case can be ordered from the court. The fee to retrieve a paper file is \$64.00 for the first box and \$39.00 ea add'l box. Also, the public can order copies direct online from the National Archives. Copies can be delivered by mail, fax, or email. See more information, including fees, at www.archives.gov/research/court-records/.55.

The Supreme and Appellate Courts

The Supreme Court is Arizona's highest court and the court of last resort. The Court of Appeals is the intermediate appellate court and is the first appeal level for the Superior Court. The Court of Appeals, Division One, hears appeals from the Industrial Commission, unemployment compensation rulings of the Department of Economic Security, and rulings by the Tax Court.

Details on the Court Structure

The **Superior Court** is the court of general jurisdiction and acts as an appellate court for Justice and Municipal courts. The Superior Court hears felony, misdemeanor (if not heard elsewhere), civil, property cases of \$1,000 or more, eviction, probate, estate, divorce and naturalization issues.

Justice Courts oversee civil lawsuits where the amount in dispute is \$10,000 or less, landlord and tenant controversies, small claims cases and a full range of civil and criminal traffic offenses, including DUIs. Justices of the peace also resolve other types of misdemeanor allegations (e.g. shoplifting, writing bad checks, violating restraining orders)

Municipal Courts may also be known as City or Magistrate Courts. These courts hear misdemeanor or civil traffic cases where no serious injuries occur as well as violations of city ordinances. They do not hear civil lawsuits between citizens.

Civil cases between \$5,000 and \$10,000 may be filed at either Justice Courts or Superior Courts. Preliminary felonies can be heard at either the Superior Court or Justice Courts, but not at the Municipal Courts. Justice Courts and Municipal Courts generally have separate jurisdiction based on case types as indicated in the text herein.

Record Searching Facts You Need to Know

Fees and Record Searching Tips

Fees across all jurisdictions as established by the Arizona Supreme Court and state legislature are as follows: Superior Courts \$27.00 per name search, \$27.00 per certification; Justice of the Peace Courts \$25.00 per name search, \$25.00 per certification; Municipal Courts charge \$17.00 per name search and \$17.00 per record duplication. Of course there is no fee in the Superior Court if a researcher does his/her own onsite name search there is no fee. The copy fee for all courts is \$.50 per page.

Be aware that some Justice Courts will charge a "research fee" to pull a file even if the case file is already known and given. Also, some courts will charge a separate research fee for each case found under the same name. Useful advice from AZ private investigators and record researchers is to bring a copy of the law in hand when visiting certain courts.

Generally a misdemeanor action occurring within the city on a city street will be heard in the city's Municipal Court, and a misdemeanor action occurring on a county maintained roadway will be heard at a Justice of the Peace Court. Thus Municipal Courts may hold more records than just low level ordinance violations and traffic. It is important to note that not all Municipal Courts report misdemeanors to the AOC online database (see below). Thus a high level of due diligence is required for background checks, research is often necessary to be performed at the Municipal Court level. This can be problematic as access is limited and statutory court fees are relatively high (compared to other states).

Public access to all Maricopa County court case indexes is available at a central location - One W. Madison Ave in downtown Phoenix. However, file copies must be obtained from the court where the case is heard.

Online Access is Nearly Statewide – But Not From One

The **Public Access to Court Case Information** online system provided by Administrative Office of the Courts (AOC) contains information about court cases for a majority of the courts in Arizona. But courts not covered include certain courts in the counties with the highest popula-

System and Only 85% for Felony Records

tions: Pima, Yavapai and Maricopa counties. Information provided includes detailed case information (i.e., case type, charges, filing and disposition dates), the parties in the case (not including victims and witnesses), and the court mailing address and location. Plus municipal courts are not included.

For more information go to <http://apps.supremecourt.az.gov/publicaccess/caselookup.aspx>. Please note the site has a strong disclaimer which states in part "...not all cases from a participating court may be included...information should not be used as a substitute for a thorough background search of official public records..."

According to local researchers and screening firms, the updating of records on the system can be inconsistent, especially at the lower court level. **Use caution if this site is accessed for pre-employment screening or high due diligence needs, as it is merely supplemental.**

Maricopa County (Phoenix metro area) provides one free search site for Superior Court criminal, civil, probate, and family case records, and one for Justice Court case docket data at www.superiorcourt.maricopa.gov/docket/JusticeCourtCases/caseSearch.asp.

Pima County (Tucson metro area) provides online access for civil Superior Court records, but **not criminal**. There are three Justice Courts in Pima; two are on the state system, the Pima Consolidated Justice Court has its own online system.

In summary, only 85% of the state's felony records are online. Use caution if approached by a vendor who is promising an instant AZ criminal record search. There is no such search.
